

TAURUS

E q u i p m e n t

Innovated and crafted by W&M Joyce Engineers Ltd Est 1971

2KSTCASSY2/BLACK/BLUE/RED

All clamps as shown can be used on the 2KF, 2KS, 2KSX and 2KSE machines. They are interchangeable using the Taurus "T Slot" design. The black clamp rubber is soft, the red is medium (standard) and the blue is hard.

The wide type felt pad is useful for use with exceptionally tall moulding where two nail positions are required, and only the highest peak of the moulding is available to clamp on. It will cover a positional movement of approximately 15mm.

2KSTCASSY5

2KSTCASSY3

The narrow felt pad is especially useful for narrow, shaped mouldings, or when joining hardwoods.
